PORTFOLIO

Nadia Manasterska

About me

Hi, my name is Nadia and I am currently a second year student of Social Informatics at AGH in Cracow. I am interested in UX and UI Design and would love to expand my knowledge even more. Besides my studies I am currently in a Student Research Group called 'UX Berries'.

In my free time I like to do yoga or go to the gym. I also love to travel and explore new places.
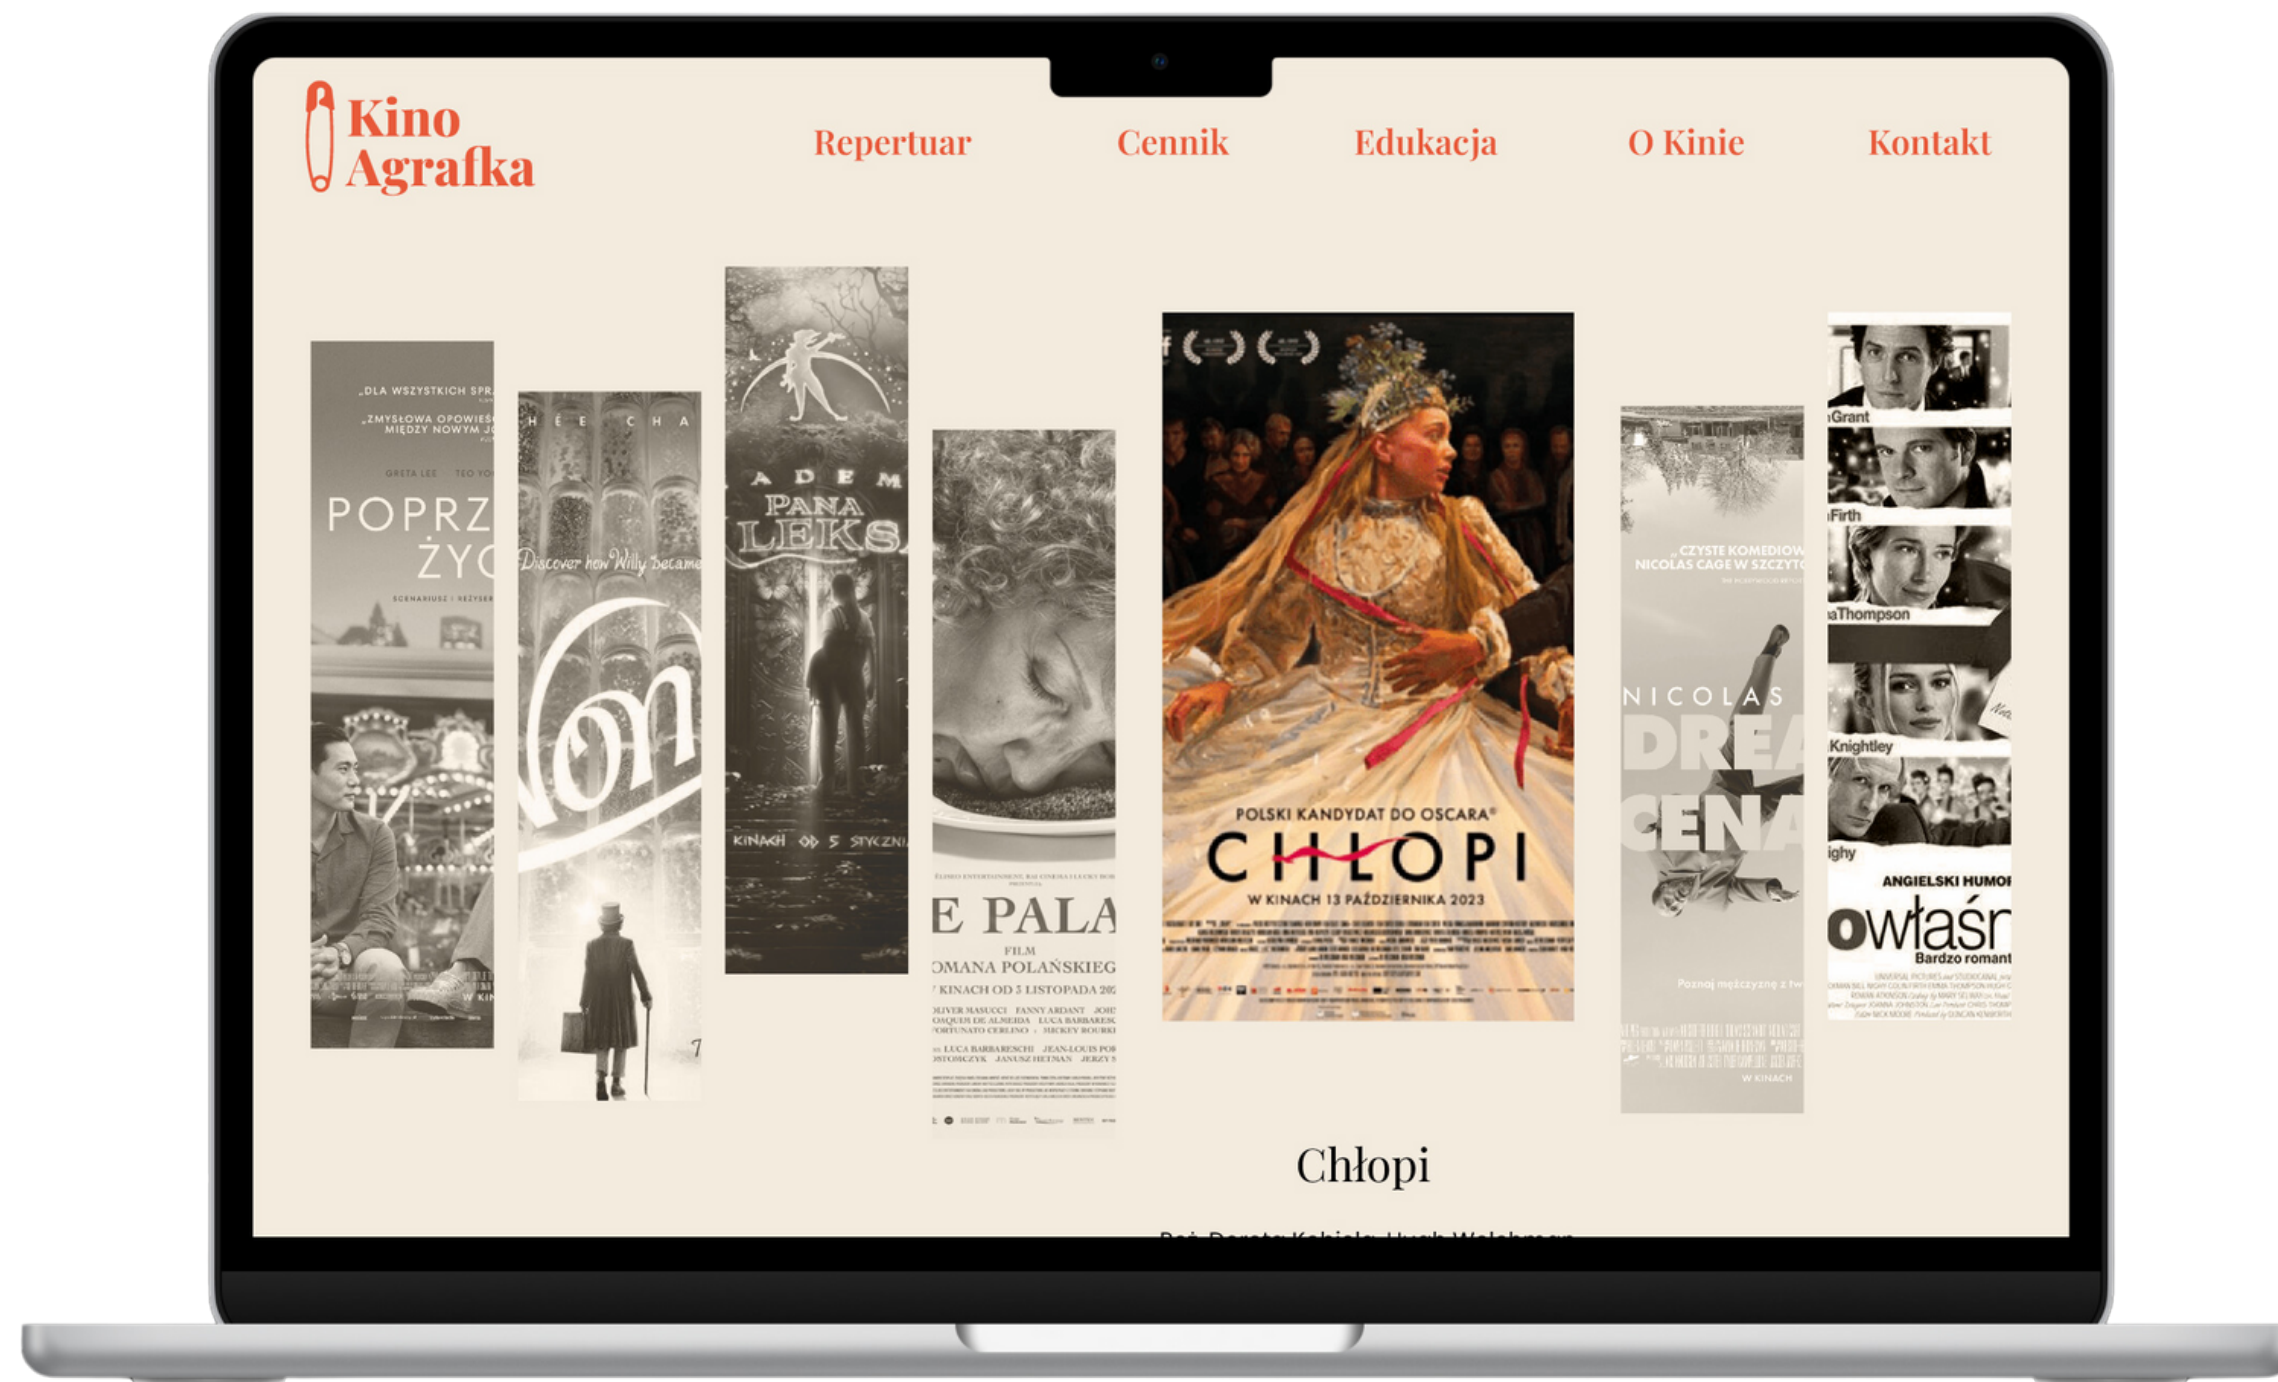

Kino Agrafka
Website Redesign

During the course "Designing Interfaces. Basics of Ergonomy" me and two other students redesigned Kino Agrafka's website.

In our minimal and classic design we also wanted to incorporate a little bit of colour - hence the orange details.

Our steps

We started the process with creating a benchmark and doing a competition analysis.

Our next step was to create 3 persons - our potential users.

Then we looked at the information architecture and created a new one.

When we had all the necessary information we created a style guide. And we were ready to design.
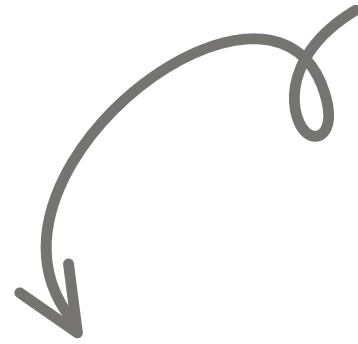

PetMe
App Design

During the course "Introduction to Interface Design" me and three other students designed an app for pet owners where users can store necessary information about their animals

Our steps

First we created a benchmark and looked at all similar apps.

Our next step was to create 2 persons of potential users and design simple wireframes.

When we had all the necessary information we created a style guide and started designing.

Horoscope
App Design

During the online course made by "GoIt" I created a horoscope app incorporating their designs and photographs.

Prognoza dla znaku
Byk

Byki to niebiańskie istoty z rogami. Przed podjęciem decyzji Byk przemyśli ją trzysta razy. A potem nadal będzie miał tylko 25% pewności, że postępuje właściwie.

Stabilność, porządek i dyscyplina są ich podstawą. Jeśli zabierzesz Byka na randkę i nie powiesz mu gdzie idziecie, oszaleje i to przed 19:00.

"Moje zasady są niezachwiane"

✦ **Prognoza na 2023**

Główną rzeczą jest poprawna składnia

▦ **Supermoc w IT**

Potęga w IT - JavaScript.

♡ **Szczęśliwe numery**

3, 10, 18, 30, 33
